Editor-in-Chief

**Ebrahim Shirani**

Email: [director@jafmonline.net](mailto:director@jafmonline.net)

Co-Editor

**Ahmad Reza Pishevar**

Isfahan University of Technology

## **Aim and scope**

The aim of *JAFM* is to advance the development of fluid mechanics research in the scientific community and to provide an authoritative medium for publication of original articles covering theoretical, computational and experimental research embodying scientific aspects of the mechanics of fluids and their applications. It is to be an online journal free of charge for both authors and researchers in the third world countries.

## **Subject Areas**

*JAFM* is targeted to a broad community interested in different aspects of fluid dynamics. This community largely consists of scholars in Mechanical, Chemical, Civil, Aerospace, Environmental, Nuclear and space Engineering and Metrological Sciences.

*JAFM* contains regular papers only. It does not accept letters, short papers, news letters nor commercial advertisements. *JAFM* is an online journal.

The topics of the journal cover any branch of theoretical, numerical and experimental fluid mechanics, including the following fields: turbulence, instabilities and transition, CFD, aerospace fluid, geophysical fluid dynamics, astrophysical fluid dynamics, gas dynamics, boundary layer flows, environmental fluid mechanics, combustion and reacting flows, hydrodynamics and hydraulics, fluid machinery, bluff-body aerodynamics, multi-phase flows, industrial fluid mechanics, bio-fluid mechanics, flow visualization, flow measurement, flow control, flow induced vibration, heat and mass transfer, magneto hydrodynamics, aeroacoustics and aeroelasticity, porous media flows, swirling flows and micro and nano-fluid dynamics. The journals topics are not to be considered rigid and the online medium will allow the Journal to evolve and adapt in time.

## **JAFM subscription**

Authors, readers, and visitors wishing to subscribe to the *JAFM* should register online registration by clicking [register now](#) at the top of the main page. Further information may be obtained from the *JAFM* secretarial board using the email address: [secretary@jafmonline.net](mailto:secretary@jafmonline.net)

## **JAFM is supported by**

The Physics Society of Iran and Isfahan University of Technology
